

FOR JOB SEEKERS • GY SAT

You didn't choose this career. Pressure did.

Family, peers, panic — most of us picked a path that never fit. 4 honest questions to find what actually suits you 📌

WHAT YOU SHOULD DO

~~"Beta, do
engineering."~~

WHAT ACTUALLY FITS YOU

The thing you'd do for
free.

START WITH WHAT'S ALREADY TRUE

1

What do people always come to YOU for help with?

Your natural strengths hide in what others already trust you to do.

2

What could you do for 3 hours and not notice the time?

Flow is a signal. It points at work that won't drain you.

Don't overthink these. First honest answer > the 'impressive' one.

NOW NOTICE THE ENERGY

3 

Which tasks energise you, and which quietly drain you?

Two people, same job — one's alive, one's exhausted. Fit is the difference.

4 

What did you love before 'being practical' kicked in?

The old spark usually still points somewhere real.

 **Fit isn't a personality quiz — it's a pattern across all four answers.**

THE PATTERN IS YOUR FIT

Line up all four answers and a direction shows up — one you can actually test.

Strengths**Energy****Interests****Values**

A 5-minute assessment beats 5 years of guessing.

GY SAT maps how you think and work to careers that suit you — free.

STOP GUESSING • GY SAT

Find your fit in 5 minutes.

- 1 What people ask you for help with
- 2 What makes you lose track of time
- 3 What energises vs drains you
- 4 What you loved before 'practical'

Take the **GY SAT** — a free 5-minute strengths assessment that points you at careers that actually suit you.
