

5 SKILLS THAT GET YOU HIRED IN 2026

that no degree teaches

1

AI literacy

Work with AI tools to build and deliver faster.

2

Commercial awareness

Understand the business model and how money is made.

3

Async communication

Write clearly and document well for remote collaboration.

4

Data translation

Convert raw figures & analytics into business action.

5

Proactive problem-solving

Present solutions instead of just highlighting problems.
