STEADY THE MIND

1 Name it

It's grief + uncertainty, not weakness. Naming it takes its power down.

2 Cap the doom-applying

5 tailored applications beat 50 copy-pastes — for your inbox and your head.

 **Protecting your headspace *is* the productive move some days.**

KEEP YOUR WORTH OUT OF IT

3 ⚖️ **Separate worth from outcome**

A 'no' is about fit and timing — not your value as a person.

4 ✅ **One small win a day**

A fixed resume line counts. Momentum beats mood.

💡 **You are not the number of rejections in your inbox.**

DON'T CARRY IT ALONE

5 🗣️ **Talk to someone**

A friend — or a professional. Saying it out loud is not weakness, it's maintenance.

If it's getting too heavy, you don't have to white-knuckle it.

GYPSY — our AI companion + real career psychologists — exists for exactly this.
