

FOR JOB SEEKERS • PROFILE

Your LinkedIn is doing **90%** of the job hunt for you.

Most freshers leave it on
default — and recruiters scroll
right past. **5 fixes** 📌

Swipe to fix yours →

FIX 1 & 2 — THE FIRST GLANCE

This is all a recruiter sees before deciding to click.

HEADLINE

✗ “Student at XYZ College”

✓ “BBA grad • aspiring B2B sales • open to work”

BANNER

✗ Blank default grey — a wasted billboard.

✓ One line on what you do + a clean colour or campus shot.

💡 Your headline follows you into every search, comment and DM. Make it work.

FIX 3 & 4 — PROVE IT

The part freshers skip — and it's where trust is built.

ABOUT

✗ Empty, or “hardworking individual seeking opportunities”.

✓ 3 lines: who you are → one thing you've done → what you want next.

SKILLS

✗ None added — so you match no searches.

✓ Pin your top 5. Get 3 endorsements from classmates/faculty.

💡 Recruiters search by skill. No skills listed = you don't exist in the results.

FIX 5 — STAY VISIBLE

A finished profile still needs a pulse.

ACTIVITY

✗ Silent account — last post: never.

✓ Comment on 2 posts a week in your field. You'll show up in feeds.

OPEN TO WORK + PHOTO

✗ No signal to recruiters; blurry selfie.

✓ Turn on #OpenToWork (recruiters-only). Face, daylight, plain background.

💡 Bonus: grab your custom URL (linkedin.com/in/yourname) — put it on your resume.

DO ALL 5 THIS WEEKEND

Then let the roles come to you.

- 1** **Headline that says what you want**
- 2** **Banner that isn't blank**
- 3** **A 3-line About with proof**
- 4** **Top 5 skills + endorsements**
- 5** **Weekly activity + #OpenToWork**

A findable profile is half the hunt. See live openings that fit — freshers welcome, new roles daily.
