Quantitative

speed maths, ratios, %

Logical reasoning

patterns, puzzles, series

Verbal

grammar, vocab,
comprehension

Coding (for tech)

basic DSA / output

💡 **The clock is the real test. Accuracy under time > knowing everything slowly.**

2-WEEK PREP PLAN

30 minutes a day. That's it.

**Days
1–4**

Speed maths + shortcut tricks

**Days
5–9**

Puzzles, series & reasoning drills

**Days
10–14**

Full timed mocks — every day

 **Always practise with a timer on. It's a different skill from untimed.**

TEST-DAY TACTICS

Small moves that save marks.

- ✓ **Attempt easy ones first — bank the marks**
- ✓ **Stuck? Skip & return, don't burn 5 minutes**
- ✓ **Watch negative marking before you guess**
- ✓ **Stable internet + a quiet room + rough paper**

💡 **Nerves are normal. A plan turns them into focus.**
