

NEW JOB • GY ASSIST

Your first 30 days decide the next 3 years.

Landing the job is half of it.
The first month is where you
quietly win. 📌

Swipe for the playbook →

WEEK 1 → WEEK 2

Absorb first. Then aim.

W1

Learn the landscape

Names, tools, and how work actually gets done. Ask — don't assume.

W2

Find the #1 priority

What does your manager care about most? Align your week to it.

Questions in week 1 look curious. The same questions in month 3 look lost.

WEEK 3 → WEEK 4

Now make it visible.

W3**Deliver one small win**

One finished, useful thing people can see. Momentum > perfection.

W4**Ask for feedback early**

‘What could I do better?’ — before anyone has to tell you.

Asking for feedback first turns a correction into a conversation.

THE QUIET KILLERS

What benches good freshers.

✗ Going quiet on your manager for days

✗ Nodding when you didn't understand

✗ Doing great work nobody knows about

Over-communicating isn't annoying — it's reassuring. A 2-line update beats silence.

WIN THE FIRST MONTH

Land it, then keep it.

- 1 W1 — learn how it works**
- 2 W2 — align to your manager**
- 3 W3 — one visible win**
- 4 W4 — ask for feedback**
- 5 Over-communicate always**

New role coming up? We help you land AND settle in with GY Assist.
