

INTERVIEWS • GY FIT

Half your interviews are on a **screen** now.

**Most freshers lose points
before they say a word. Fix
your frame first 📱**

Swipe to fix your setup →

THE SETUP

Judged before you speak.

✓ **Camera at eye level (stack some books)**

✓ **Light facing you, not behind you**

✓ **Test audio + internet 10 min early**

THE 5 TELLS

Small habits, big difference.

- 1 Look at the camera, not at yourself**
- 2 Sit up — energy reads on screen**
- 3 Don't read off a second screen**
- 4 Pause before you answer**
- 5 Smile at hello and goodbye**

 **Looking at the lens = looking them in the eye. It changes everything.**

IF THE TECH FAILS

It happens to everyone.

Stay calm — nobody scores you on their wifi

Keep your phone hotspot as backup

Have the interviewer's number handy

"Can we reconnect in 2 minutes?" is a totally fine sentence.

SET THE FRAME, THEN SHINE

Same you, better frame.

- 1 Camera at eye level**
- 2 Light in front of you**
- 3 Plain, tidy background**
- 4 Look at the lens**
- 5 Pause before answering**

Nail the answers too — practise the questions every fresher gets with GY Fit.
