RESUME HACK

# Read the job post like the ATS does.

swipe for the 3 steps →

STEP 01

# Highlight the must-haves.

Skills, tools, qualifications, years. **These are the words the software looks for.**

JOB POST · CUSTOMER SUCCESS ASSOCIATE · BENGALURU

## What you'll do

- Handle **client servicing** for a portfolio of accounts
- Track renewals in **Excel** and **CRM tools**
- Must have: **B.Com or BBA**, **0–2 years** of experience
- Strong **English communication**, spoken and written

*your keyword list*

STEP 02

# Use their exact words.

Same skill, different words, and the software may miss it.

THE JOB POST SAYS

Handle **client servicing** for a portfolio of accounts

YOUR RESUME SAYS

~~Handled customer queries for key accounts~~

CHANGE IT TO

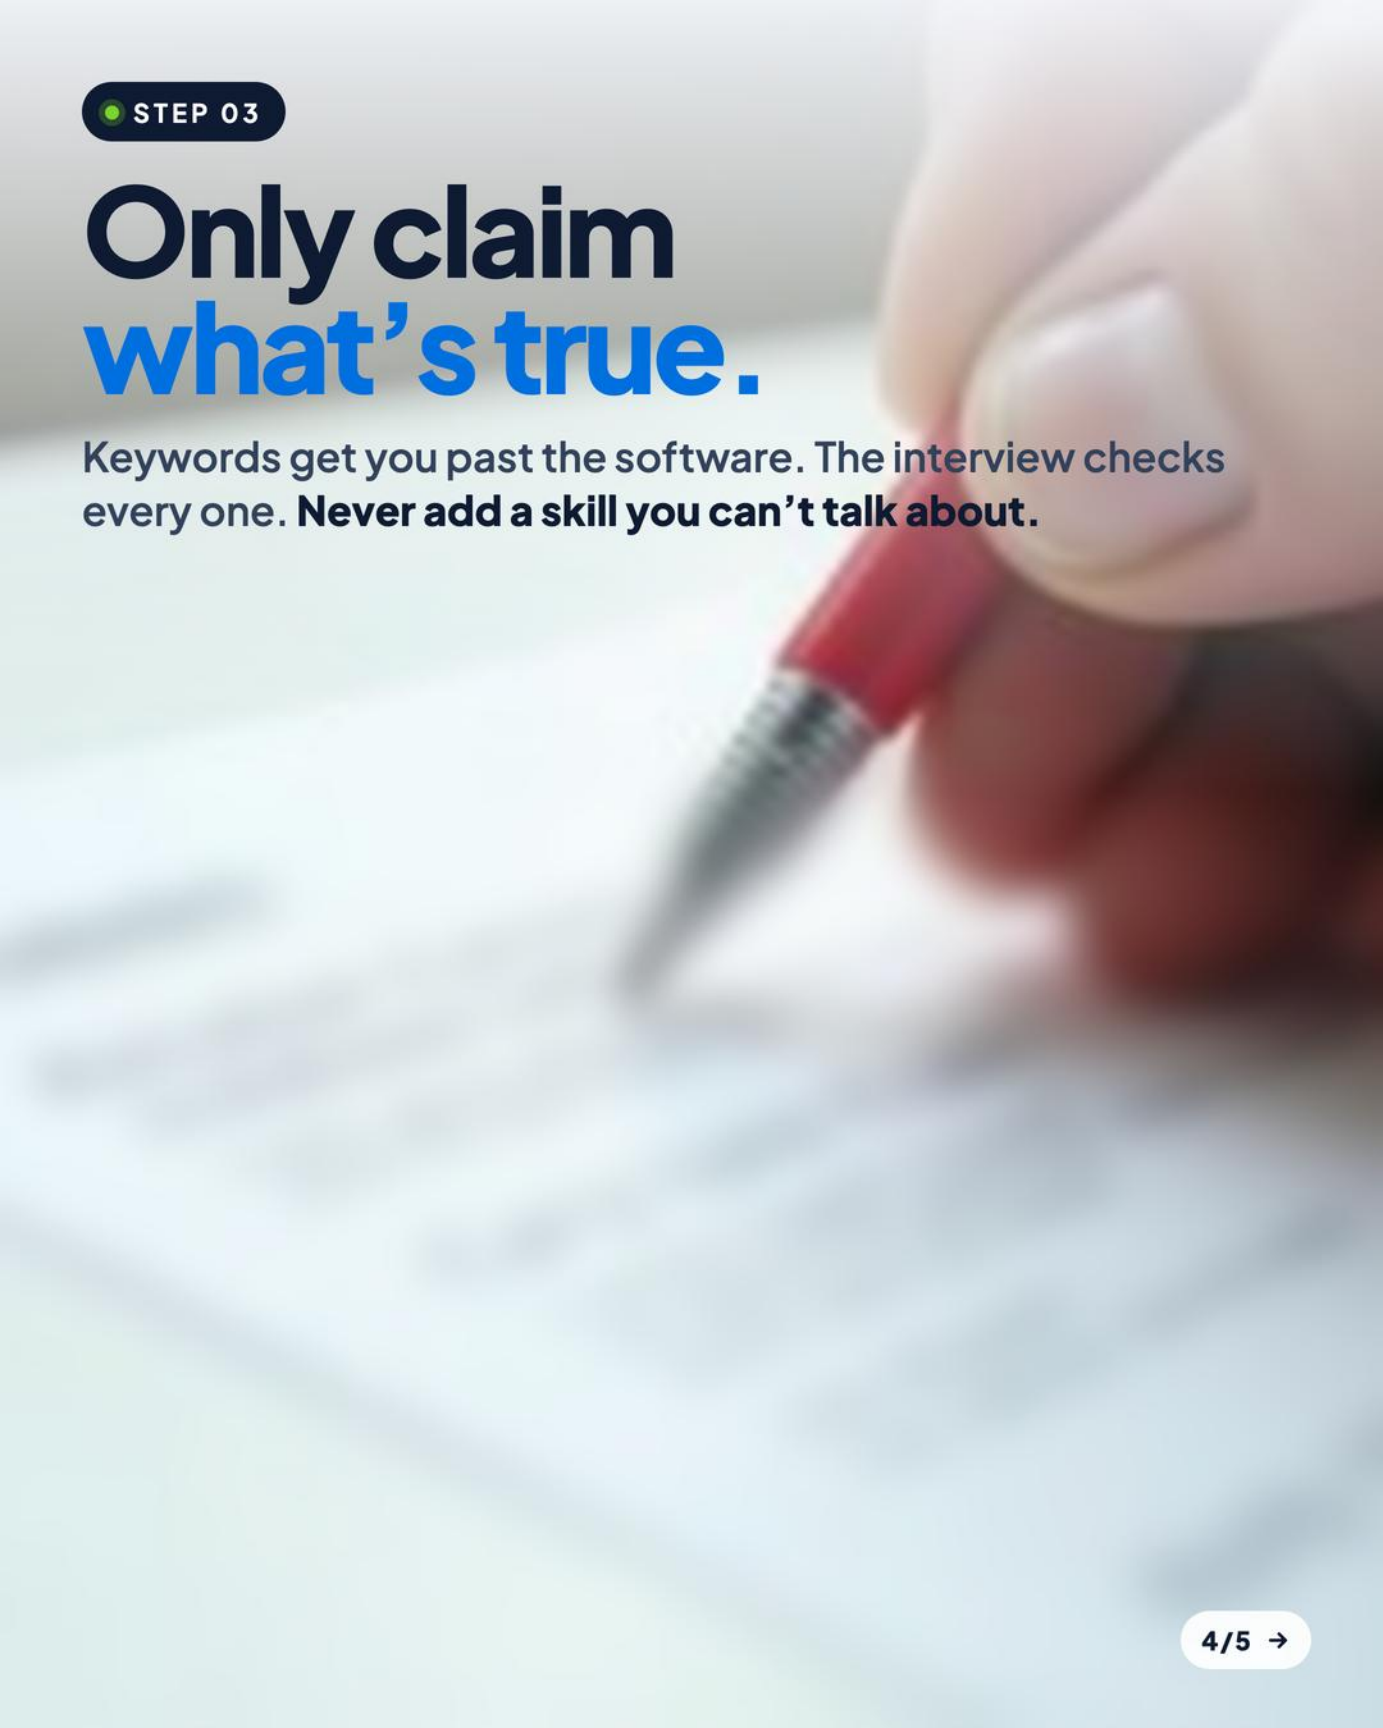

Managed **client servicing** for 30 key accounts

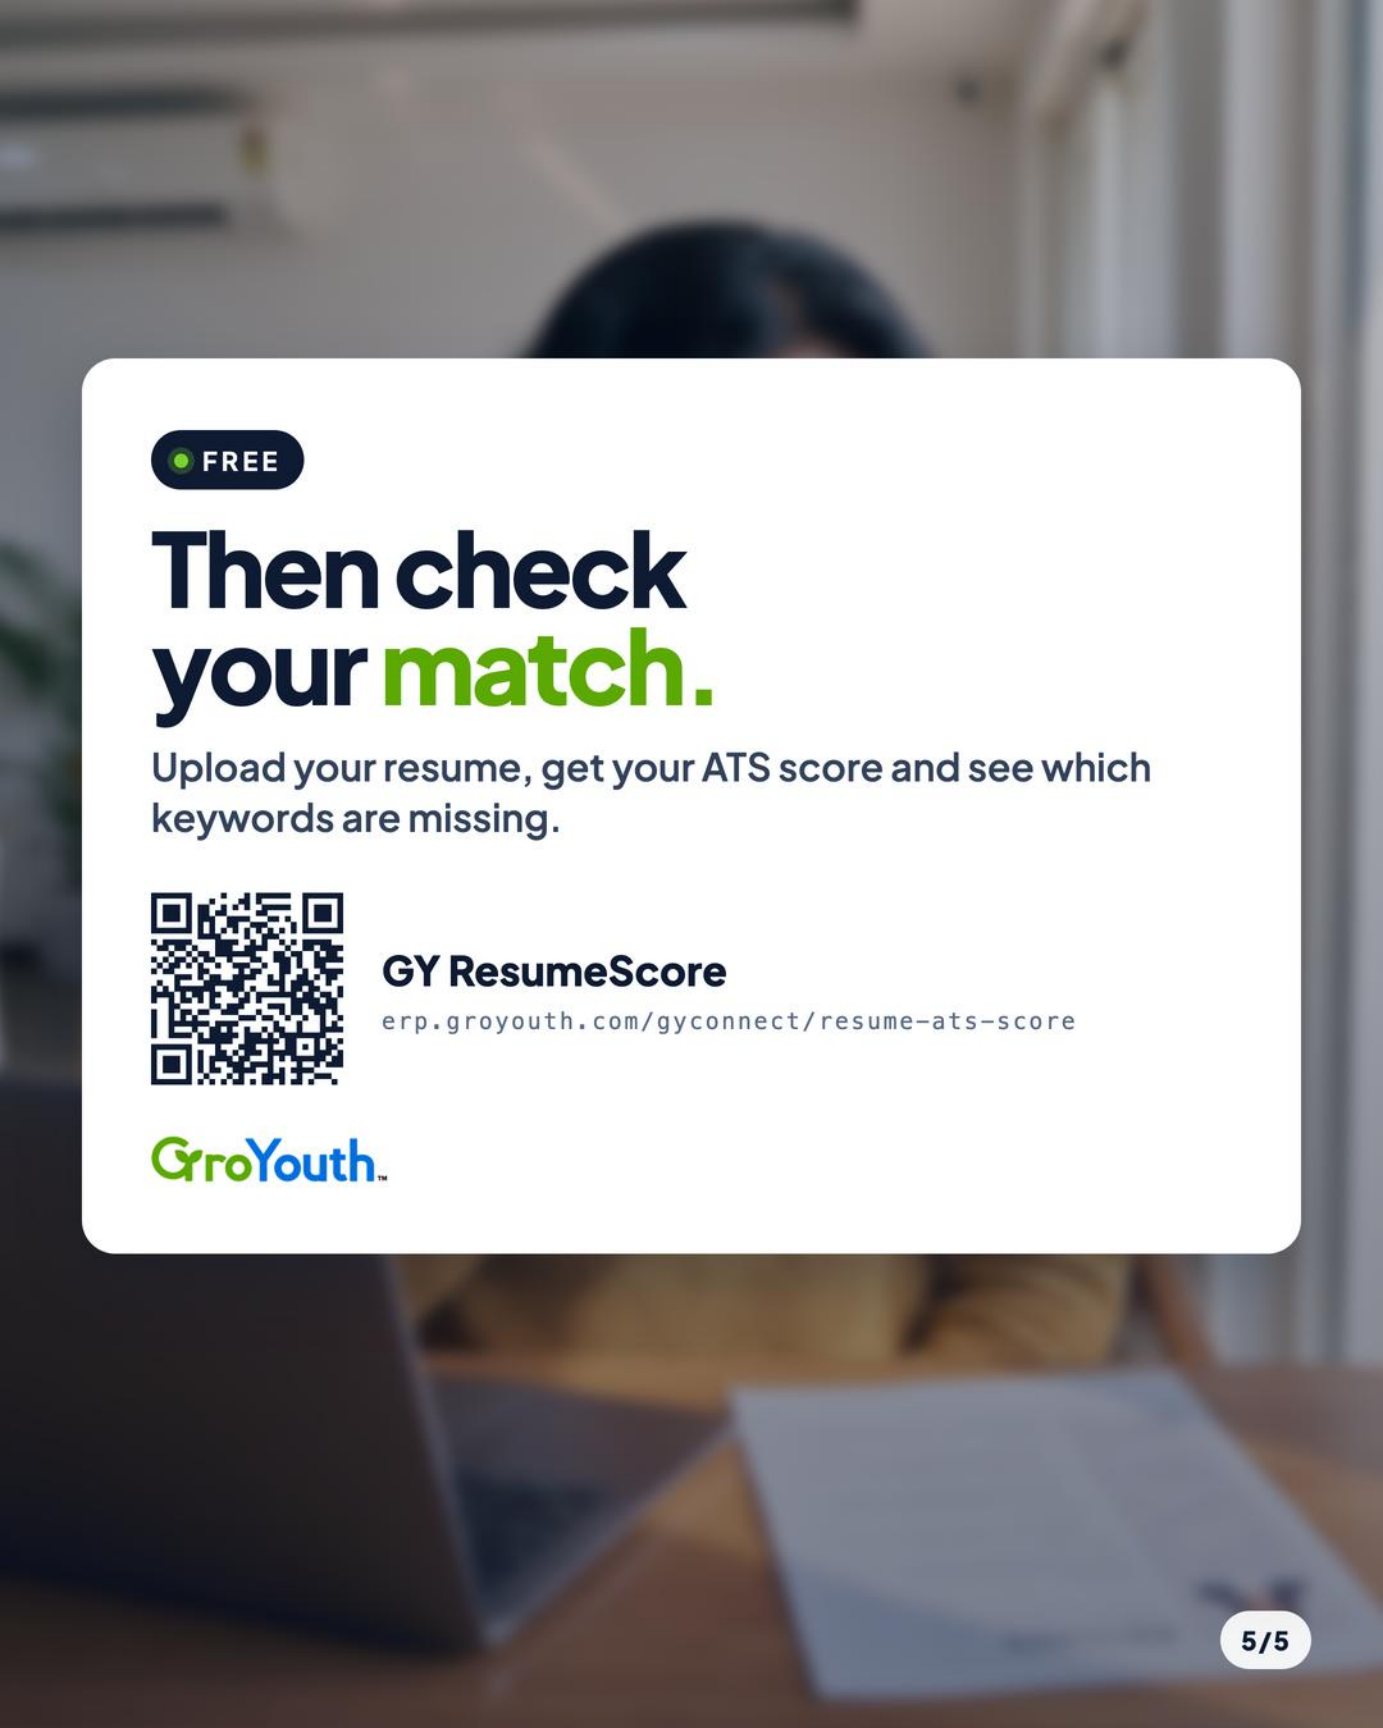

*same job. now it matches.*

STEP 03

# Only claim what's true.

Keywords get you past the software. The interview checks every one. **Never add a skill you can't talk about.**

FREE
Then check your match.
Upload your resume, get your ATS score and see which keywords are missing.
