Where does your resume actually go?
1/5 →

STEP 1

The ATS parses your resume into fields.

If the layout breaks, data gets lost here.

you control this

STEPS 2 + 3

It gets filtered. Then skimmed.

The system ranks by keywords and must-haves. A recruiter skims the shortlist, often for seconds.

STEP 4

The hiring manager picks who to interview.

A delay at any step means silence for you.
Silence usually means a stuck process.
