
JOB SEEKERS, READ THIS
Everyone's queuing at one door.
open. wide open.

1/5 →

DOOR 02 · MANUFACTURING

Run the line. And the data.

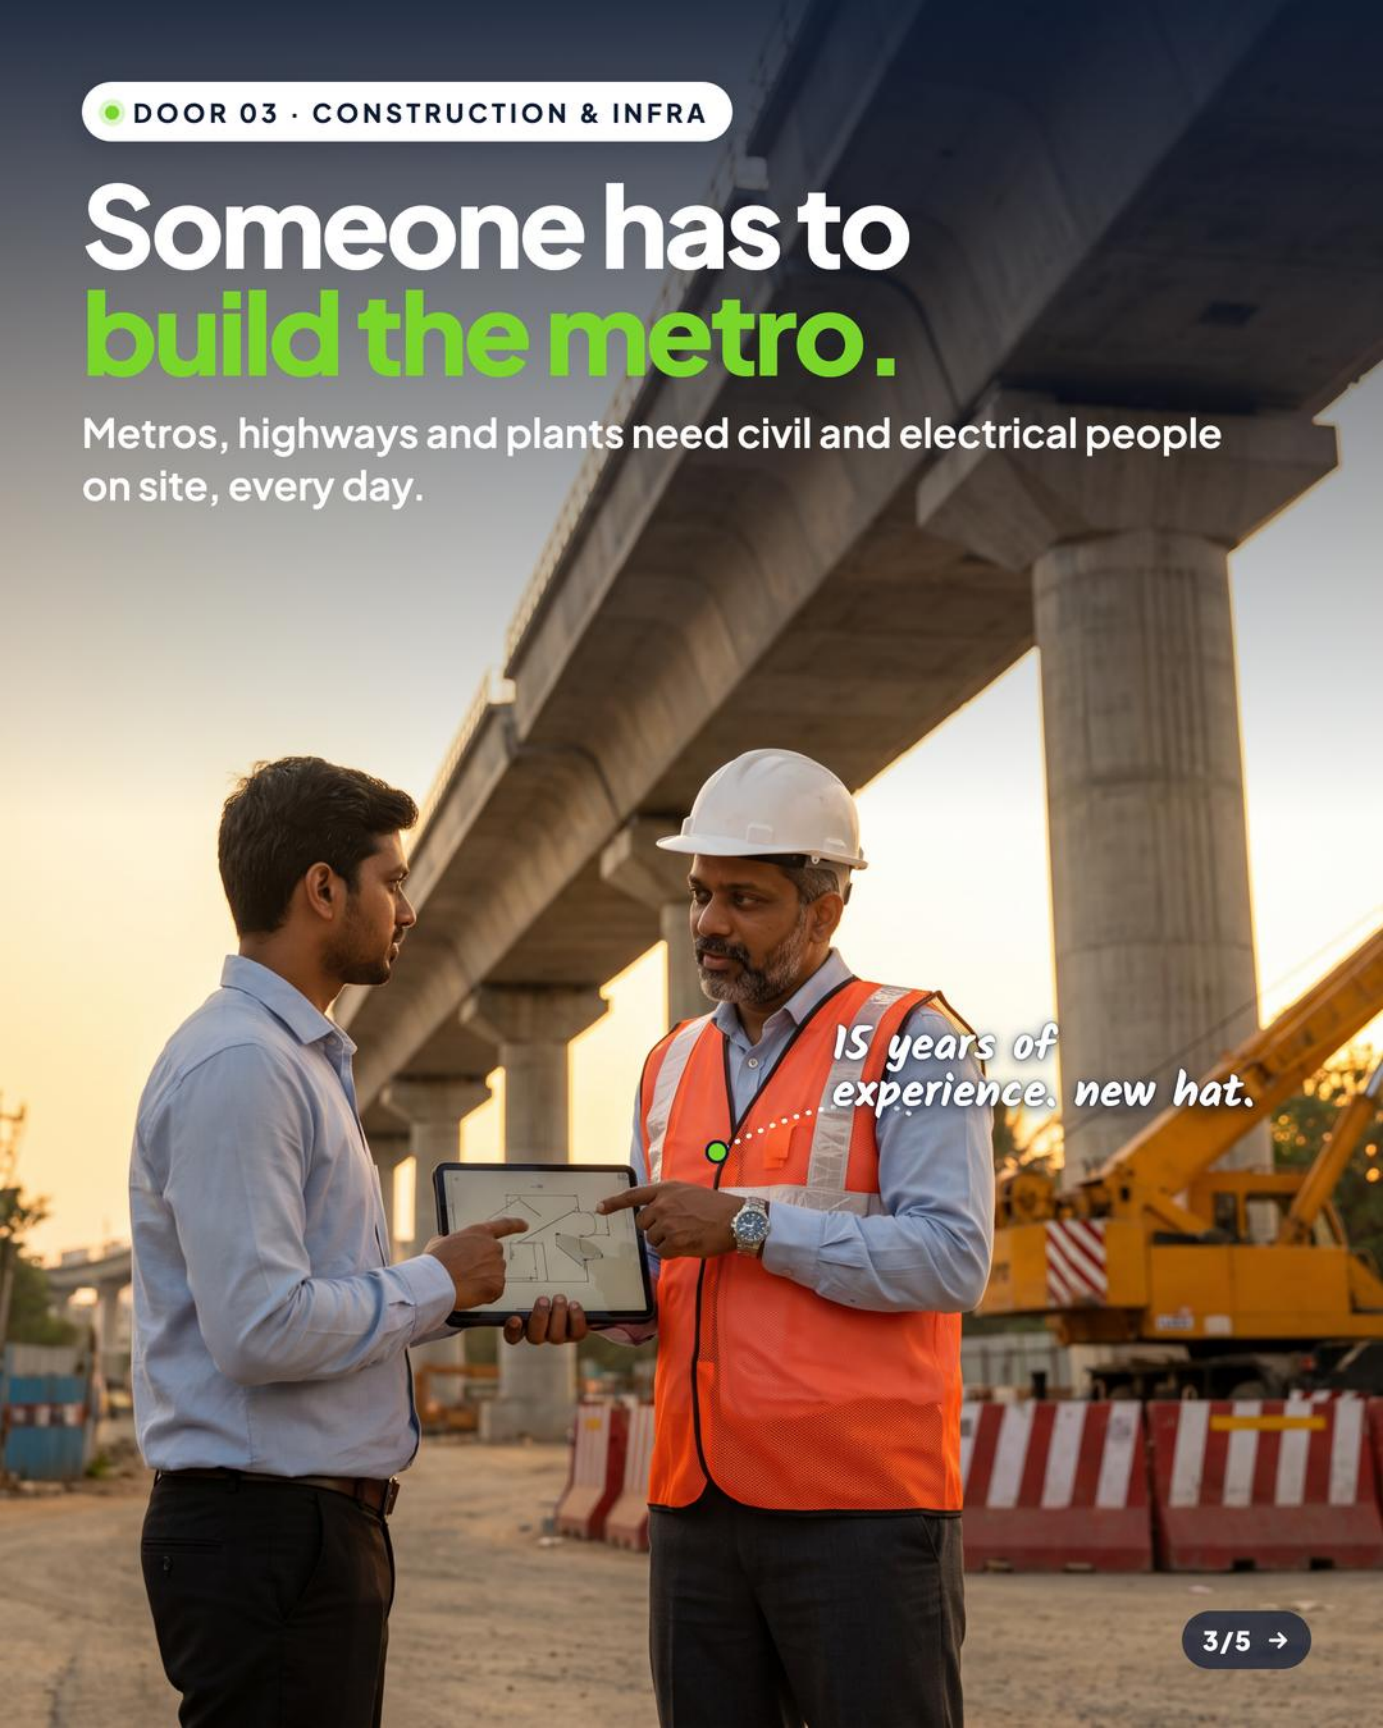

Modern plants hire engineers who can work the machines and read the screens.

DOOR 03 · CONSTRUCTION & INFRA

Someone has to build the metro.

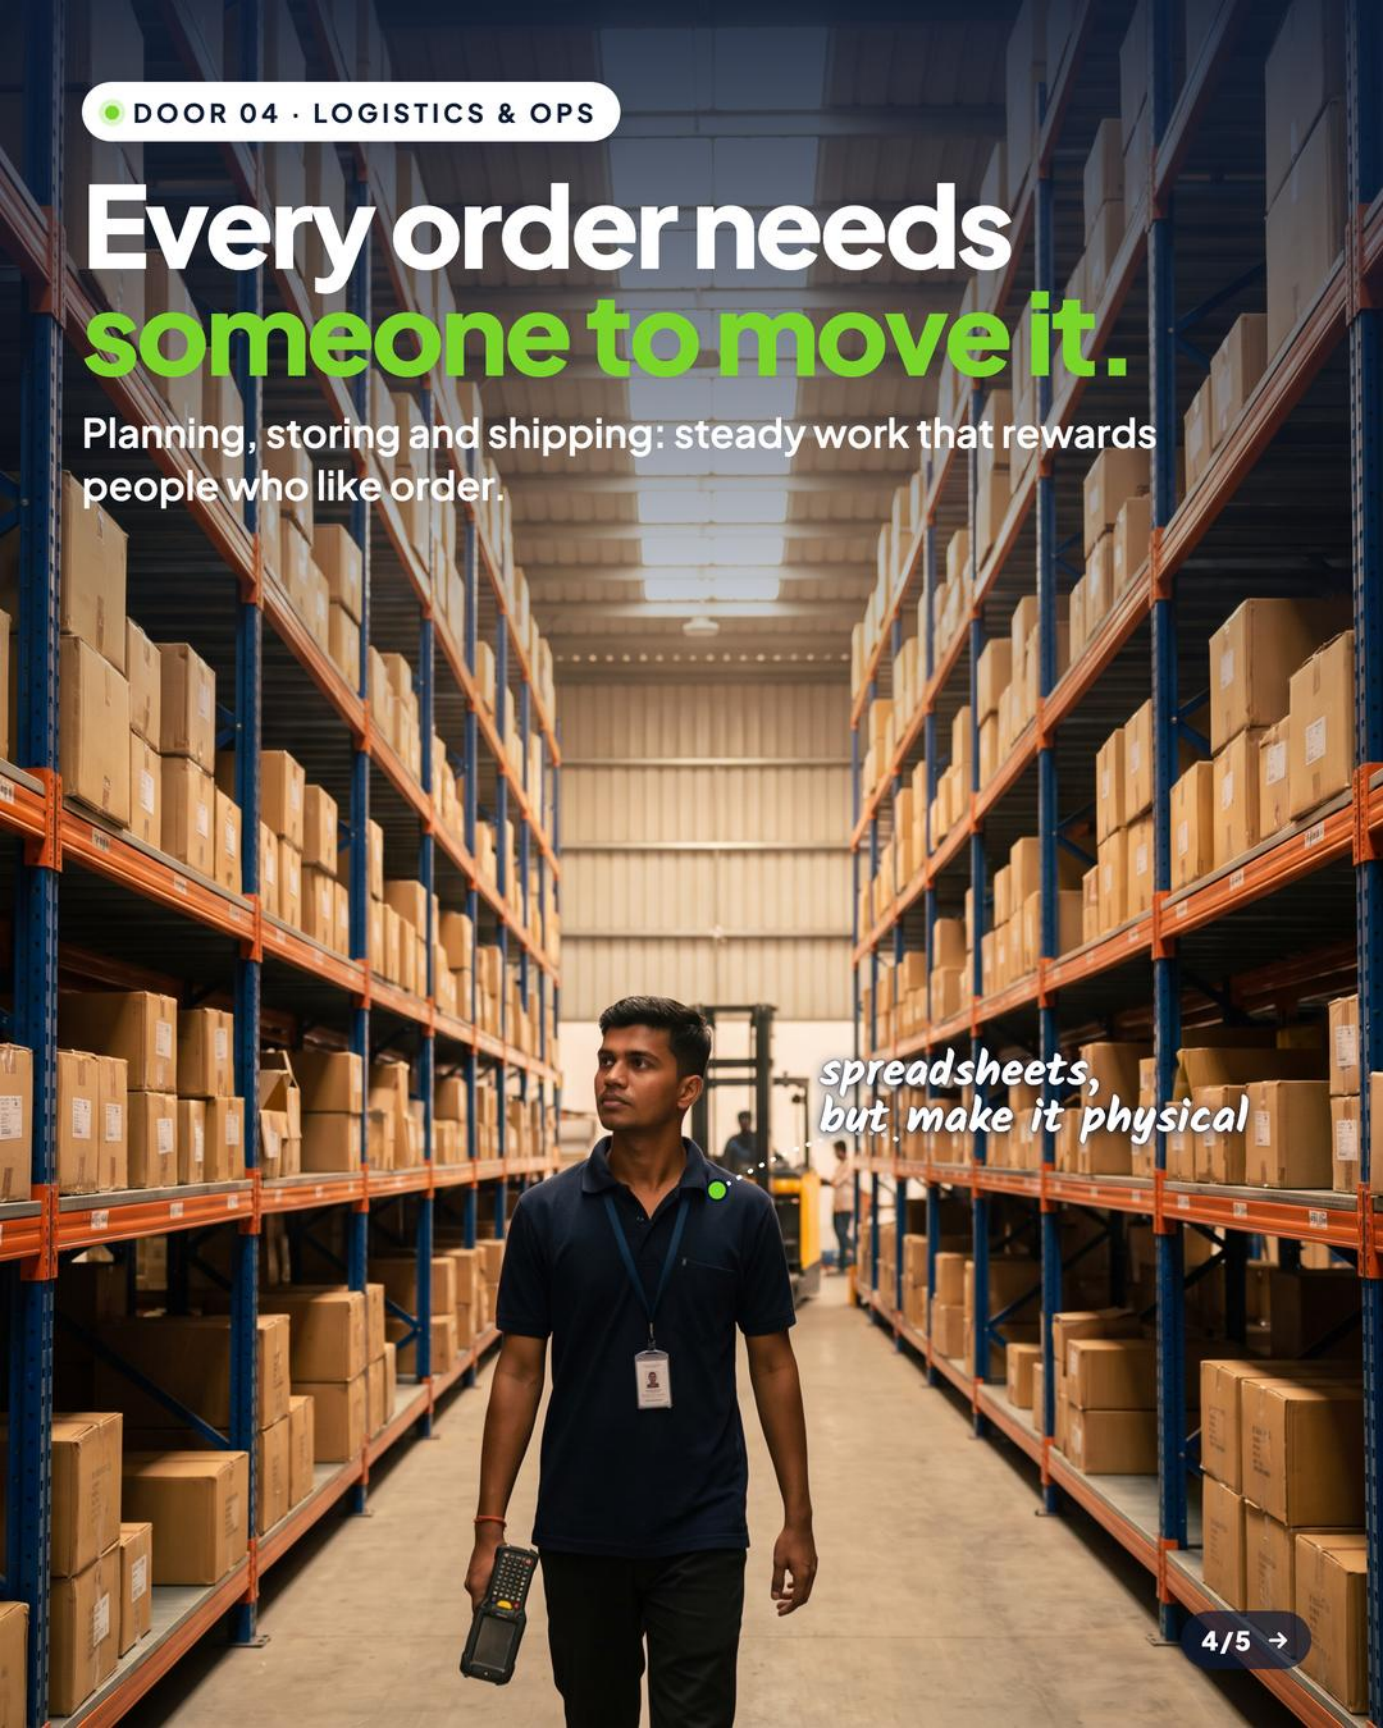

Metros, highways and plants need civil and electrical people on site, every day.

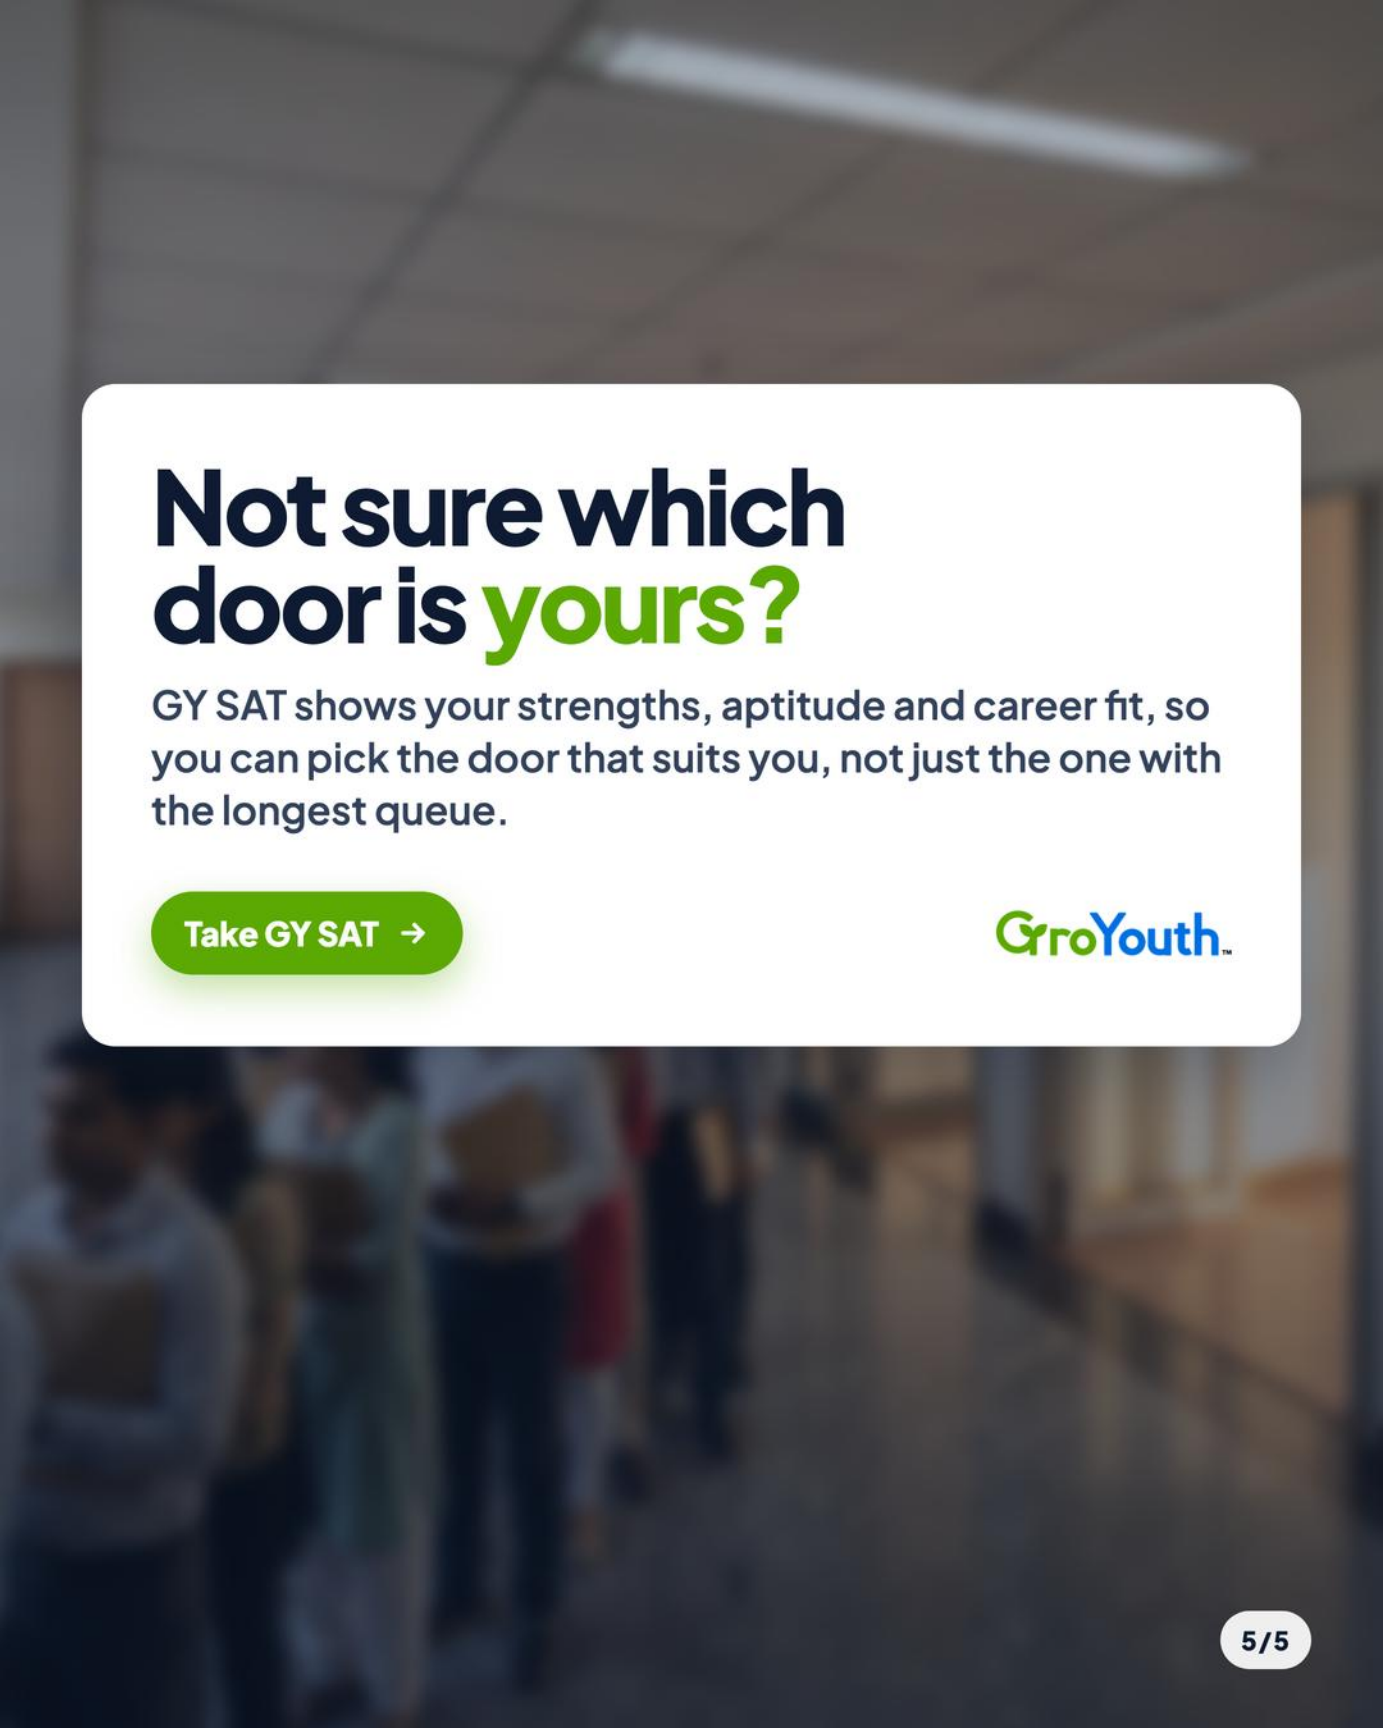

DOOR 04 · LOGISTICS & OPS

Every order needs someone to move it.

Planning, storing and shipping: steady work that rewards people who like order.

Not sure which door is yours?
GY SAT shows your strengths, aptitude and career fit, so you can pick the door that suits you, not just the one with the longest queue.
